Patient Locality Group - Newcastle Central

We are looking for members of patient participation groups from these practices who may be interested in joining a Locality Group that will look at health issues across the area.

The locality group will form an integral part of communication between PPGs and the Patient Congress which feeds into the Clinical Commissioning Board, making sure patients can get involved with local health issues and putting the patient voice at the heart of the Clinical Commissioning Group (CCG) decision making.

If you would be interested in finding out more about joining the locality group, please contact:-
